- Drug License - Biology Department DEA PEO217097, DPS 60049876 and DEA PEO126068, DPS JOO40282
- Animal Welfare Assurance #A-3241-01

Physical Plant Office

- Texas Department of Agriculture applicator’s license #N-4099
- City of San Antonio Swimming Pool License #3443
- Food Service
- Health Department Certificates
- City of San Antonio Food Establishment License
- Central Injury Reports by Category
- Injury/Illness Reports

Safety Training

1. New Employee Training

- Each department, in conjunction with Environmental Health and Safety shall incorporate Environmental Health and Safety principles in their employee orientation program.
- The Office of Human Resources shall orient new employees concerning working conditions and general safety policies in effect on the Trinity University campus.
- Environmental Health and Safety will orient new employees during their six-month probationary period on procedures for reporting emergencies, accidents and injuries.
- Department supervisors will orient new employees regarding site-specific safety practices. Supervisors are to advise those employees exposed to hazardous materials of their rights under the Texas and OSHA Hazardous Communication Standards.
- The department supervisor will provide written guidelines that the employee is to follow.
• The department supervisor will advise employees of the location of MSDS's relevant to an employee's work area.
• The department supervisor will complete a New Employee Orientation Checklist.

2. **Student Orientation**

As an educational institution, Trinity University places a special emphasis on safety education as a component of the student's overall learning experience.

At the start of each school year, Residential Life staff, in conjunction with Environmental Health and Safety, shall advise residents:

- about University safety policies;
- of specific Residential Life safety rules;
- on occupancy safety policies and rules; and
- on procedures for reporting emergencies, accidents and injuries.

Classroom and Laboratory Safety - Departments with classes and laboratories using specialized equipment shall advise students of safety policies including:

- safety practices and procedures to be followed in classroom areas;
- course requirements in respect to compliance with safety policies and rules; and
- procedures for reporting emergencies, accidents and injuries.

Student Activity - The Vice President for Student Affairs shall promulgate a system of supervision to ensure safe practices in the student activity area.

Student employees shall receive a brief orientation in the Office of Human Resources regarding general University safety practices and procedures prior to reporting to their work unit.

Department supervisors will orient employees regarding site-specific safety practices

3. **Faculty/Supervisory In-Service Training Awareness**

Each department, as appropriate, shall provide specialized safety training awareness for its employees.

Departments are to train employees each time a new hazard is introduced into a work area. This training is to be documented.

4. **Off-Campus Groups Utilizing University Facilities**
The official university sponsor of any campus group utilizing university facilities will ensure that safe practices and procedures are followed.
