

## Clery Act Policy

**Document Number:** COPS-0008

**Date Published(sys):** 8/21/2024

---

### *General Description*

#### **Policy Summary:**

Trinity University is committed to maintaining a safe and secure environment for its faculty, staff, students, and visitors. As part of this commitment, the University complies with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (the 'Clery Act'). This federal law mandates that higher education institutions provide accurate and timely information about crime and campus safety to the university community, prospective students, and their families.

This policy outlines Trinity's adherence to the Clery Act, including reporting crime statistics and general security policies. Additional requirements for institutions with residential housing include fire safety policy statements, missing student notification procedures, and fire statistics.

Should Trinity University need to adjust this policy to align with new guidance, an interim policy may be issued under the University's [Policy on Policies](#).

#### **Purpose:**

Per the University's obligations under the Clery Act, Trinity publishes an Annual Security Report (A.S.R.) on campus crime statistics by October 1st of each year, available for viewing on Trinity's website.

Hard copies are available from the Trinity University Police Department ("TUPD").

Questions regarding the report may be directed to the Assistant Vice President of Public Safety-Enterprise Risk Management at 210-999-7070.

This document outlines Trinity's policies, procedures, and responsibilities for complying with the Clery Act, codified at 20 U.S.C. § 1092(f), and its implementing regulations at [34 C.F.R. § 668.46](#). It also establishes requirements and expectations regarding crime disclosures and reporting, developing, documenting, and enforcing certain campus safety and security policies,

procedures, practices, and information related to the fire safety provisions outlined in [34 C.F.R. § 668.49](#).

**Scope:**

This policy applies to all members of the Trinity University community.

**Responsible Department:**

Trinity University Police Department

## B. Institutional Requirements for the Clery Act

## II. Confidentiality and Victim Privacy

Any victims or witnesses to a crime, including victims who elect not to or are unable to make a formal complaint or do not wish to pursue action within the University or criminal justice system, are encouraged to report crimes on a voluntary, confidential basis to TUPD. TUPD can file a confidential report providing details of the incident without revealing a victim's or witness's identity to the extent federal or state law allows. The purpose of the confidential report is to keep the reporter's personally identifiable information confidential while taking steps to ensure the reporter's safety and the safety of others. Reports filed this way are counted and disclosed in the University's ASR.

The University recognizes the sensitive nature of crimes and is committed to protecting the privacy of anyone who reports these incidents. As such, TUPD does not publish the names of crime victims or other identifiable information regarding victims in its publicly available Daily Crime Log, Timely Warnings, or Emergency Notifications.

However, there may be circumstances when TUPD must disclose information about a victim to the University Title IX/EEO Coordinator or other University employees to provide necessary accommodations or protective measures. In these cases, the TUPD Chief of Police, or designee, will immediately provide information to Trinity's Title IX/EEO Coordinator, Vice President of Student Affairs, and/or Director of Counseling Services and work collaboratively only to provide information necessary to comply with the University's obligations under Title IX and other applicable federal or state laws.

## III. Publish an Annual Security Report (ASR) and Fire Safety Report (FSR)

By October 1 of each year, TUPD publishes Trinity University's ASR and FSR in collaboration with several other University partners. The ASR and FSR include three (3) calendar years of Clery Act crime and fire statistics and related security policies and procedures. TUPD is responsible for creating the ASR, and Environmental Health and Safety is responsible for developing the FSR.

Trinity University's Annual Security Report and Fire Safety Report are available on the Trinity University Police Department Website.

The TUPD and various University partners review and actively share information throughout the year to ensure the most recent processes, procedures, and policies are reflected in the current ASR and FSR before publication on October 1 of each year. The Trinity University Chief of Police, or designee, assigns timelines to ensure Trinity publishes the report by the deadline of October 1 of each year.

Trinity provides the ASR and FSR on the TUPD website and notifies the campus community when it has published the report. This notice includes instructions on accessing the report and requesting a paper copy. TUPD is responsible for ensuring paper copies of the report are available upon request.

#### IV. Identify, Notify, and Train Campus Security Authorities (CSAs)

On an ongoing basis, Trinity Human Resources identifies positions that meet the definition of CSA. Once identified, the TUPD Corporal—Administrative Compliance Assistant notifies Human Resources and the individuals in the identified positions. Trinity requires all CSAs to complete annual training provided by the University.

The University assigns CSA compliance certification training upon employment. In addition to providing the CSA training presentation to all designated CSAs, the University provides several in-person and online training opportunities. Human Resources regularly reviews and updates the list of designated CSAs.

#### V. Identify and Maintain Clery Geography

The Clery Act reporting requirements are specific to where the reported crime has occurred. The ASR and FSR only include those crimes that have occurred on Clery Geography, as in the terms and definitions section of this policy defined above, including on-campus property, non-campus property, and certain public property.

Any CSA traveling with student groups must fill out a travel form and complete CSA training before traveling.

Any academic or administrative department implementing a new program that creates new Clery Geography must ensure that notice is provided in writing before the program begins.

Facility Services must notify TUPD whenever there is a change to any newly acquired or leased property used for educational purposes.

#### VI. Collect, Classify, Count, and Disclose Clery Act Statistics

Crime statistics for incidents that occur in Clery Geography must be disclosed. TUPD, through consultation with various campus partners, is responsible for gathering and correctly categorizing crime statistics for the University.

These campus partners include but are not limited to the Dean of Students Office, Residential Life, Athletics, Title IX/EEO Office, Human Resources, Facility Services, local law enforcement agencies, and other CSAs.

Crimes don't need to have been investigated, nor must a finding of guilt or responsibility be made for an incident to be included in the ASR. These crimes are categorized as of the reported date, not the date of occurrence. All reported crimes must be determined to have occurred within Clery Geography before being included in the ASR.

The University must include reported crimes in the ASR even if the victim wants the incident or report to remain confidential or requests that no investigation occur. The ASR does not identify parties and provides limited information to preserve substantial confidentiality.

TUPD submits all statistics published within the ASR and FSR to the U.S. Department of Education via the Campus Safety and Security Survey.

All parties designated as CSAs must report all alleged Clery Crimes. A report may be made by a victim, a witness, or a third party, even if they did not witness the reported crime. Once a CSA is involved, the CSA is responsible for reporting that crime in the ASR, entering it on the [Crime Log and Fire Log](#) webpage, and providing it to the public within two (2) business days of the report being made to the TUPD.

CSAs must forward reports to TUPD immediately, so the report can be assessed for ongoing threats to the Trinity community, including, if appropriate, a Timely Warning or Emergency Notification can be issued as soon as possible.

Anyone seeking guidance on the Clery Act or requesting information about whether they are a CSA may e-mail [tupd@trinity.edu](mailto:tupd@trinity.edu).

Beginning in January each year, TUPD will work to reconcile crime data. This review may include representatives from other University offices. In addition to crime reconciliation meetings, a meeting to review and compose aggregate records reflecting the previous year occurs annually each spring semester. Each area provides an audit trail for their records.

While the University assists with reminders and requests, the prompt reporting of Clery Act crimes is a continuing expectation and must be done upon receipt of the crime report.

The University is committed to protecting individuals from interference with making a protected disclosure or for refusing to follow an illegal instruction, as defined by the [Whistleblower Policy](#).

## VII. Compile, Report, and Publish Fire Data

The Clery Act requires that institutions compile and publish fire statistics. These fire statistics only apply to Trinity's On-Campus student housing facilities.

TUPD provides the information to be included in the FSR. This process is monitored each month to reconcile data promptly. Expected information includes fire statistics for each on-campus student housing facility separately for the three (3) most recent calendar years for which data are available under Clery regulations. Each facility must be named in the statistics, regardless of whether any fires have occurred.

Additionally, a description of the fire safety systems in each student housing facility is provided for inclusion in the FSR.

#### VIII. Maintain and Publish a Daily Crime and Fire Log

The Crime and Fire Log lists crimes, alleged crimes, and fire incidents on campus and within the extended patrol response area of the TUPD. This log provides crime and fire information on a timelier basis than the annual statistical disclosures and is updated every 24 to 48 hours during the business week.

The Crime and Fire Logs contain up to sixty (60) days of activity. They are available [online](#) or by request during normal business hours at TUPD (Located at 538 Kings Court, San Antonio, Texas 78212). Logs older than sixty (60) days are available by making a request in person at the TUPD or by emailing [tupd@trinity.edu](mailto:tupd@trinity.edu). It may take up to two (2) days to provide access to older data. The University does not include Personally-Identifying Information (PII) in the Crime and Fire Log.

TUPD officials review all self-initiated reports and any report otherwise provided by CSAs. Each crime report to TUPD is entered into the Records Management System and added to the Crime and Fire Log within two (2) business days of the report.

All fire information is managed similarly to document the nature of the fire, the date it occurred, the date and time it was reported, and the general location of each fire-related incident in an on-campus student housing facility reported to any Trinity official.

Once the information has been posted, TUPD reconciles the Daily Crime and Fire Log. All case updates made within 60 days of the original Crime and Fire Log entries are reflected.

#### IX. Issuing Timely Warnings and Emergency Notifications

##### **Timely Warnings**

The University must provide timely warnings about Clery Crimes occurring on the University's Clery Geography that the University considers to present an ongoing threat to the campus community. Timely warnings are issued in a manner likely to reach the entire campus community but do not identify the victim of the crime. A timely warning will be issued as soon

as the information is available to assess whether there is an ongoing threat to the campus community.

The TUPD is responsible for confirming facts that indicate a notification is necessary. Additionally, TUPD is primarily responsible for issuing, coordinating, and determining content and delivery methods of emergency notifications and timely warnings. TUPD may collaborate with other Trinity personnel, including but not limited to the Vice President for Student Affairs, Vice President for Inclusive Engagement, Vice President for Strategic Communications and Marketing, and/or the Office of General Counsel, when deciding to issue a timely warning.

### **Emergency Notifications**

Trinity must inform the campus community about a significant emergency or dangerous situation involving an immediate threat to the health or safety of University faculty, staff, employees, students, patients, and visitors occurring on campus. Intended to have broader application than a timely warning, an emergency notification includes Clery Act crimes and other types of emergencies, including imminent or impending threats (e.g., fire, infectious disease outbreak, etc.). Emergency events may be localized; therefore, notifications may be tailored exclusively to the segment of the campus community at risk.

The University must also have emergency response and evacuation procedures specific to its on-campus facilities. The ASR and FSR disclose a summary of these procedures. Additionally, TUPD must assess the emergency response procedures annually. Emergency notifications are labeled and identified to the community as a TrinALERT.

Once it is confirmed that there is a significant emergency or dangerous situation involving an immediate threat to the health and safety of some or all members of the campus community, the Chief of Police, Director of Emergency Management, or other assigned designees will initiate an emergency notification.

TUPD, without delay and considering the safety of the campus community, decides on the content of the notification and activates the notification system. The only reason the University would not immediately issue a notification for a confirmed emergency or dangerous situation would be if doing so would, in the professional judgment of the responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency. The University must issue an emergency notification to the campus community as soon as the condition necessitating the delay is no longer present.

TUPD collaborates with Trinity's Environmental Health and Safety Office to ensure that, as necessary, all emergency and evacuation procedures are reviewed and updated accordingly. These procedures are published in the ASR and FSR. In addition, TUPD requires and confirms the types and the times testing is done to evaluate the University's emergency and evacuation

procedures.

#### X. Responding to Reports of Missing Students

The University has established procedures to support locating students who reside in on-campus and University-owned housing and have been determined to be missing. Any member of the Trinity community who believes a student is missing must immediately notify the TUPD at (210) 999-7070.

Trinity University's [Residential Life Missing Person Policy](#) provides more information about missing students.

#### XI. Responding to Sex and Gender-Based Incidents

Trinity is committed to providing all University community members a safe and non-discriminatory learning, living, and working environment.

The University does not discriminate on the basis of sex or gender in any of its education or employment programs and activities, and it does not tolerate discrimination or harassment on the basis of sex or gender. The University's [Policy Prohibiting Sexual Harassment and Sexual Misconduct](#) and [Policy Prohibiting Harassment and Discrimination Based on Protected Status](#) prohibits sexual and gender-based harassment, sexual assault, sexual exploitation, stalking, dating and domestic violence, and retaliation. These types of prohibited behavior damage the overall well-being of our community and its members, the learning and working atmosphere, and the respectful relationships among our students, faculty, and staff.

All forms of prohibited conduct may be regarded as serious University offenses, and violations may result in discipline, including potential separation from the University. Some forms of prohibited conduct may also violate state and federal laws, and criminal prosecution may occur independently of any disciplinary action imposed by the University.

The University complies with Title IX of the Education Amendments of 1972 (Title IX), which prohibits discrimination on the basis of sex in the University's programs and activities; the Clery Act, as amended by the Violence Against Women Reauthorization Act of 2013 (VAWA); Title VII of the Civil Rights Act of 1964; Chapter 21 of the Texas Labor Code; Chapter 40, Section 819 of the Texas Administrative Code; and all other applicable law. To promote such compliance and the safety of our community, please review the Title IX Policy, which is available at the following link: Trinity University's [Policy Prohibiting Sexual Harassment and Sexual Misconduct](#).

#### XII. Document Retention

The University must keep all records related to Clery Act compliance for seven (7) calendar years.

TUPD annually creates a compliance file that contains that year’s relevant Clery Act compliance documents and records.

XIII. Document Destruction

Unless otherwise instructed by the Office of General Counsel, all Clery-related materials will be destroyed at the beginning of the eighth (8th) calendar year.
